About eFusion Technology

Founded in 2004, **EFUSION TECHNOLOGY** is an information technology firm dedicated to business success through long-term relationships with our clients and staff. Based in Singapore, eFusion is a dynamic, service-oriented enterprise, and is positioned to successfully respond to trends and changes in the information technology industry. Over the years, we have established ourselves as one of the most prominent E-commerce developer in Singapore.

eFusion client relationships are based on delivering the highest quality professional technology consulting and development services. eFusion enjoys an excellent reputation as a proven resource for strategic planning, custom software development, internet/intranet development, and network support. eFusion's customer base is diverse and spans both private and public sectors.

eFusion takes pride in a history of projects that significantly enhance and/or improve our clients' business practices and level of service.

eFusion brings together proven experience, vast industry knowledge, the best technology and forward-looking innovation to enable business and government clients to achieve maximum returns from their IT investments.

eFusion are committed to a long-term partnership with each client, providing all aspects of system planning, installation, user training, and continuous product enhancement.

Why Us?

MOST designers cannot code, and **MOST** programmers cannot design.

At Efusion, we combine the **best of both worlds** and is good at finding a **balance between functionality and aesthetics.**

Our relationship with clients are not based on one-off projects. In fact our value-added services in terms of e-marketing and technical assistance have always provided high ROI for them. When our clients sense the value of web technology brought to them, they come back to us for further businesses.

Our objective ...

Making Technology Work For You
